

gridlocks – can you unlock the grid?

Periodic Table 1

You will need a copy of the Periodic Table of the elements to answer these gridlocks.

Gridlock 1

Each row, column and 2 x 2 box contains an element from groups 1, 2, 7 and 0 (the noble gases). Use your problem solving skills and the answers in the table above to fill in the blank boxes.

period 2		period 3	
beryllium			sodium
	chlorine		neon
period 3		period 2	

Gridlock 2

Each row, column and 2 x 2 box contains an element from groups 1, 2, 7 and 0 (the noble gases).

period 2		period 3	
	lithium		argon
			sodium
calcium			fluorine
period 4		period 2	

gridlocks – can you unlock the grid?

Gridlock 3

Each row, column and 2 x 2 box contains an element from groups 1, 2, 7 and 0 (the noble gases).

period 2		period 3	
beryllium			sodium
			xenon
bromine			
period 4		period 5	

Gridlock 4

Each row, column and 2 x 2 box contains an element from groups 1, 2, 7 and 0 (the noble gases).

period 2		period 3	
lithium			argon
	neon		
			rubidium
		strontium	
period 4		period 5
