

Commercial Skills for Chemists: Innovation

Chemistry World Library

Developed by Professor Colin Pulham, University of Edinburgh and Kevin Parker, KKI Associates Ltd

This resource was produced as part of the National HE STEM Programme

Chemistry World – ‘Library’

Something that you might find useful in doing this module is a ‘library’ of recent issues of Chemistry World Journal. You can search these online, but sometimes it can be easier to spot interesting articles by looking at physical copies in your library or elsewhere

Some issues of Chemistry World that might be relevant to the Innovation Module case studies are these:

March 2008

2 relevant articles

November 2010

3 relevant articles

December 2010

2 relevant articles

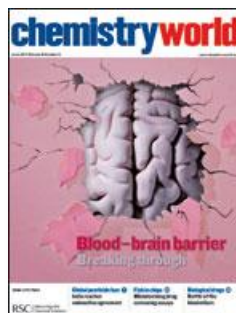

May 2011

3 relevant articles

June 2011

3 relevant articles

July 2011

2 relevant articles

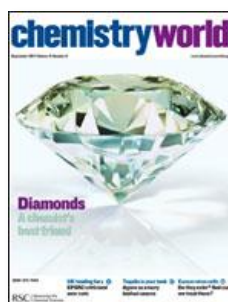

August 2011

1 relevant article

September 2011

1 relevant article

NB all of the articles are interesting but some of the articles are very relevant indeed!
