

Risk Assessment

Module 7

Health & Safety
Essentials

Registered charity number 207890

Final learning assessment

Are the statements below true or false?		true	false
1.	Health and safety law prohibits risky activities such as playing conkers.		
2.	It's not my role to do risk assessments; it's the safety officer's.		
3.	The safety committee will enforce and uphold safety rules.		
4.	I am extremely busy and have a large workload; I should consider this when I do my experimental protocol.		
5.	I've just noticed that the lab fridges haven't had an electrical safety test for more than a year: that means I have to stop using them.		
6.	I don't need to wear protective clothing when I just pop into the lab: I won't touch anything.		
7.	Maria, the lab technician is pregnant: the existing COSHH assessment covers this.		

Check your answers on the separate answer sheet.
