

Structure strips

Education in Chemistry

January 2019

rsc.li/2Lf84KE

These example structure strips encourage the discussion of the periodic table. Start the discussion with a video such as [Mendeleev and the Modern Periodic Table \(bit.ly/2PKBOzH\)](https://bit.ly/2PKBOzH) or the Royal Society of Chemistry's [Periodic Table \(rsc.li/Q8VwpW\)](https://rsc.li/Q8VwpW).

| <u>Title: The Periodic Table</u> |
|---|---|---|---|---|
| The periodic table is... |
| The periodic table we use now was suggested by...(who and when) | The periodic table we use now was suggested by...(who and when) | The periodic table we use now was suggested by...(who and when) | The periodic table we use now was suggested by...(who and when) | The periodic table we use now was suggested by...(who and when) |
| Mendeleev's model of the periodic table was special because... | Mendeleev's model of the periodic table was special because... | Mendeleev's model of the periodic table was special because... | Mendeleev's model of the periodic table was special because... | Mendeleev's model of the periodic table was special because... |
| Our current periodic table arranges elements... |
