Chemistry careers in SMEs

The interface between science and business – Introduction

Christopher Hone
University of Leeds
SMEs

‘Micro, small and medium-sized enterprises (SMEs) are the engine of the European economy. They are an essential source of jobs, create entrepreneurial spirit and innovation in the EU and are thus crucial for fostering competitiveness and employment. The new SME definition, which entered into force on 1 January 2005, represents a major step towards an improved business environment for SMEs and aims at promoting entrepreneurship, investments and growth. This definition has been elaborated after broad consultations with the stakeholders involved which proves that listening to SMEs is a key towards the successful implementation of the Lisbon goals’.

Günter Verheugen,
Member of the European Commission
Responsible for Enterprise and Industry
Slide outline

• SMEs in the UK economy
• What is an SME?
• Barriers to SME expansion
• Support programmes for SMEs

What is an SME? 1

Three criteria are used to define a company size as defined by EU law:

1. Staff headcount
2. Annual turnover
3. Balance sheet

EU definition of an SME

Article 1

Enterprise

An enterprise is considered to be any entity engaged in an economic activity, irrespective of its legal form. This includes, in particular, self-employed persons and family businesses engaged in craft or other activities, and partnerships or associations regularly engaged in an economic activity.

Article 2

Staff headcount and financial ceilings determining enterprise categories

1. The category of micro, small and medium-sized enterprises (SMEs) is made up of enterprises which employ fewer than 250 persons and which have an annual turnover not exceeding EUR 50 million, and/or an annual balance sheet total not exceeding EUR 43 million.

2. Within the SME category, a small enterprise is defined as an enterprise which employs fewer than 50 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 10 million.

3. Within the SME category, a microenterprise is defined as an enterprise which employs fewer than 10 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 2 million.

Main barriers

Technological capabilities
- Limited access to equipment and technology can slow development
- Face difficulty obtaining capital or credit

Finance
- Cannot give guarantees which traditional lenders require

People
- Lack of manpower
- Lack expertise to bring product to market
- IP management of new products and processes is challenging
- Difficulty complying with regulations (e.g. REACH)

Litigation and regulation
- People
- Finance
- Technological capabilities
Partnerships 1

• SMEs need to collaborate with external partners due to
  • Niche expertise
  • Inability to obtain credit from banks
  • Need support commercialising product
Partnerships 2

SME partnerships

Non-profit organisations (e.g. universities and charities)

European Union (EU)
UK government
Local authorities

Venture capital company
Business angels
Overseas investment
Multinational company
Main EU support programmes 1

- Financial support: grants, loans and guarantees
- Advisory support: handling regulation and access to export markets
Main EU support programmes 2

Thematic funding opportunities
Environment, research and education
Should be sustainable, value-added & transnational projects
Will only co-fund projects

EU support programmes

Internationalisation of SMEs
Help to access markets outside the EU

Enterprise Europe network
Offers business support in member states
Encourages business cooperation
For innovation and technology transfer

Structural funds
European Regional Development Fund (ERDF)
European Social Fund (ESF)
Finance distributed at regional level
Horizon 2020

For research and technological development:

Experience

Collaboration

New ideas

Cooperation
Industrial cooperation programmes 1

EU-Japan industrial cooperation programme

- **Human resources training programme (HRTP)** managers from EU SMEs spend 5 weeks in Japan to learn Japanese language and culture, and to visit Japanese companies.

- **Distribution and business practice (DBP)** 5/8 day mission to understand Japanese distribution system.
Industrial cooperation programmes 2

EU-Japan industrial cooperation programme

- **Foreign direct investment (FDI)** 5 day mission for understanding how to start or grow a business in Japan by acquiring local assets
- **World class manufacturing (WCM)** 5/8 day mission for improvement of productivity and reduce costs, including a visit to Japan’s most advanced factories
Summary

• SMEs are important for the UK economy and account for 60% of private sector jobs
• Companies which can be defined as SMEs are eligible for additional support from the UK government and European Union
• SMEs are categorised based on
  – The number of people they employed and
  – The turnover of the company or the balance sheet
