About the shampoo survey

Questions

Here are some questions that might help you to write a conclusion to your group’s survey.

1. Which is the most common type of shampoo used?

2. Which is the most common type of hair?

3. Do people choose shampoo to match their hair type?

4. Find the mean cost of the shampoos listed and give the range of prices from lowest to highest.

5. Is there a big difference in the price?

6. What reasons other than matching hair type do people give for buying a shampoo?

7. Why might it be important to pick a shampoo which matches hair type?
