

Microscale reactions of positive ions with sodium hydroxide - table

Combine the drops of solutions on this grid.

Positive ion solution	Positive ion solution and sodium hydroxide solution
Iron(II), Fe ²⁺	
Iron(III), Fe ³⁺	
Copper(II), Cu ²⁺	
Aluminium, Al ³⁺	
Calcium, Ca ²⁺	
Magnesium, Mg ²⁺	
Ammonium, NH ₄ ⁺	

This student worksheet to accompany 'Microscale reactions of positive ions with sodium hydroxide'. The table is shaded for aluminium, calcium and magnesium to improve visibility.
