

Chemical changes

- 1 How plastic waste contributes to climate change
- 2 Clean cooking for all

Electricity

- 1 At the flick of a switch
- 2 Who pays the bill?

Materials

- 1 The true cost of your mobile phone
- 2 How resources decay

9-11 years

Sustainability contexts for primary science teaching

4-7 years

Habitats

- 1 Making a bee line for biodiversity
- 2 Marine habitats under threat

Materials

- 1 Reduce, reuse, recycle
- 2 Where does our rubbish go?

Seasonal changes

- 1 Observing seasonal changes
- 2 Unexpected weather

7-9 years

Electricity

- 1 What's a battery?
- 2 Batteries 'driving' our lives?

Habitats

- 1 Sustainable palm oil to save the orangutans
- 2 Melting habitats

Materials

- 1 Sorting plastics for recycling
- 2 How plastics can be melted and remoulded into new uses

Water and the water cycle

- 1 How the water cycle is affected by pollution
- 2 How we can save water
