

University Chemistry Education

Vol. 1, No. 1

Papers

- Developing Critical and Communication Skills in Undergraduates through Chemistry1**
Terence P Kee and James Ryder
- Orienteering in the Library5**
Stephen W Breuer
-

Review

- '...And Some Fell on Good Ground'8**
AH Johnstone
-

Proceedings

- Chemistry Education for a Changing World15**
Patrick Coldstream
- Virtual Investigations: Ways to Accelerate Experience19**
John Garratt
- Creating Critical Chemists28**
Tina L Overton
- Coaxing Chemists to Communicate31**
Patrick D Bailey
-

Vol. 2 No. 1

Papers

- World Wide Web Publishing as a Basis for Student Projects1**
Paul C Yates
- Introduction To The Use Of The Chemical Literature: An Innovative Library Workbook .5**
Helen Schofield and Angus O. McDougall
- Post-laboratory support using dedicated courseware10**
Barry S. Nicholls
-

Communications

- Using Case Studies to Develop Key Skills in Chemists: A Preliminary Account16**
Simon T Belt and Lawrie E Phipps*
-

Review

- Teaching, Learning, and Computing21**
Doug Clow,
-

Perspectives

| | |

Vol. 6 No. 2

Review

- Chemical education: theory and practice**.....39
Patrick D Bailey and John Garratt
-

Proceeding

- Laboratory work provides only one of many skills needed by the experimental scientist ...**58
John Garratt
-

Papers

- A problem based learning approach to analytical and applied chemistry**.....65
Simon T Belt, E Hywel Evans, Tom McCreedy, Tina L Overton and Stephen Summerfield
- Turkish chemistry undergraduate students' misunderstandings of Gibbs free energy**73
Mustafa Sozibilir
-

Perspective

- Independent Learning for the Unwilling**84
Derek J Raine
-

Letter

- Repeatability and reproducibility**89
Jack Hoppé
-

Vol. 7 No. 1

Papers

- Prospective teachers' conceptual understanding of electrochemistry: Galvanic and electrolytic cells**1
Ali Rıza Özkaya, Musa Üce and Musa Şahin
- Learning from Problem Based Learning**13
Alison M Mackenzie, Alex H Johnstone and R Iain F Brown
-

Perspective

- Malpractices in Chemical Calculations**27
Joe Lee

Communication

- A simple and general method to draw resonance forms33**
José Vicente

Letter

- The Mythical Dependence of Boiling Points on Molecular Mass.....35**
Ronald L. Rich

Vol. 7 No. 2

Proceedings

- Problem solving: the difference between what we do and what we tell students to do.....37**
George M Bodner

Paper

- The classic HCl experiment: how long is the hydrogen–chlorine bond?.....46**
Vladimir Zholobenko

Perspective

- Evaluation of higher vs. lower-order cognitive skills-type examinations in chemistry:
implications for university in-class assessment and examinations.....50**
Georgios Tsaparlis and Uri Zoller

Letters

- Quantity algebra (calculus) – some observations58**
Jack Hoppé

- Conceptual understanding of electricity: galvanic and electrolytic cells59**
Alan Goodwin

Vol. 8 No. 1

Paper

- An Interactive Working Group in Chemistry used as a Diagnostic Tool for Problematic Study
Styles.1**
Annik Van Keer, Paul Geerlings and Henri Eisendrath
-

Perspectives

- Raising the Status of Chemistry Education.....13**
William S. Price and John O. Hill
- The Sussex 'Degree By Thesis' In Retrospect21**
James R Hanson
-

Letters

- Conceptual understanding of electricity: Galvanic cells.....24**
Ali Rıza Özkaya, Musa Üce and Musa Şahin
- The Bologna Process and Chemistry Degrees in the UK29**
Michael Gagan

Vol. 8 No. 2

Papers

- Old wine in new skins: Customising Linear Audio Cassettes into an Interactive CDROM Format.31**
Don Brattan, Michael Gagan, Tony Rest and Ray Wallace
- Ideas Underpinning Success in an Introductory Course in Organic Chemistry40**
Adnan K Hassan, Robert A Hill and Norman Reid
- Assessment in chemistry and the role of examinations52**
Stuart W Bennett
- Experimenting with undergraduate practicals58**
David J McGarvey
