

What scientist could I be?

Are you caring, kind and nurturing? Do you like looking after people? Would you like to be a veterinary nurse, pharmacist or teacher?

Do you like cooking and baking tasty treats? Would you like to be a food scientist?

Do you love being outdoors? Would you like to be a palaeontologist, geologist or an archaeologist?

Do you enjoy building and making things? Could you be a structural engineer or a toy maker?

What about a different scientific career?

Do you find experiments exciting? Could you be a research scientist, a medicinal chemist or a colour technician?
