

Key to the properties

- Shape
- Volume
- Particle movement
- Kinetic energy
- Fluidity

Artwork © Dan Elight/Text by Harry Lord

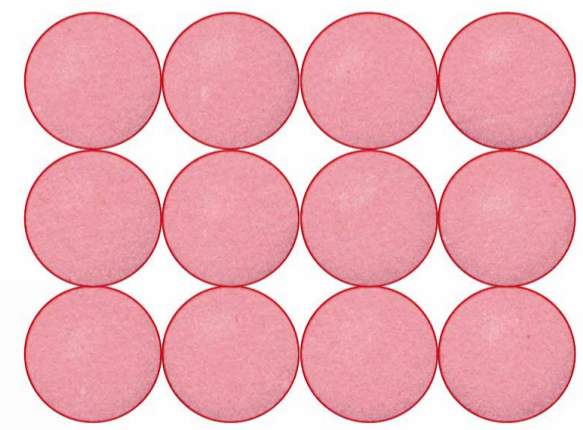

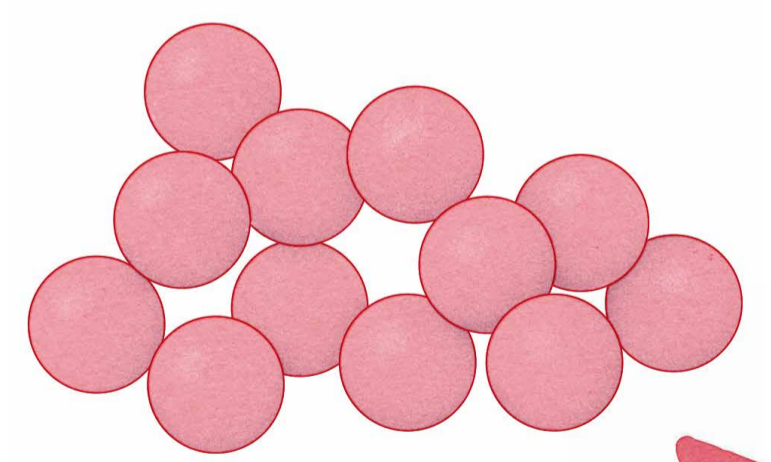

- takes shape of container
- constantly moving
- can be compressed
- high
- can flow

States of matter

- takes shape of container
- fixed (cannot be compressed)
- constantly moving and can slide over each other
- medium
- can flow

- fixed
- fixed (cannot be compressed)
- can vibrate in place but cannot move out of position
- low
- cannot flow
